SOUTH SIDE CHOR DINED

The choir of the Main street Baptist Church, South Side, were entertained last night at the home of their choir leader, H. S. Cook, 121 Tenth Avenue N.E.

About twenty-five members of the choir were present, and at the close of the entertainment daily refreshments were served by Mrs. Cook. A very enjoyable evening was spent.

EXPERIENCE SOCIAL

On Tuesday evening next, March 4th, in the parlors of the Metropolitan Church the W. M. A. will hold an "Experience Social" offering a unique program, relating earning experience, varied with vocal and instrumental numbers, and concluding with delicious refreshments.

MISS M. MILLAR VERY SICK

Prof. J. M. Miller of Robertson College has left for Penicton in the morning train, on account of the very serious illness of his sister, Miss Mary Miller, who was formerly a student of the University of Alberta, and well known on the South Side.

HOLD-THOSE

A quiet wedding took place February 27th, 1913, at the Metropolitan parsonage, by the Rev. H. J. Leitch, when Mr. Herbert Jerome Holt, formerly of Toronto, was united for life with Miss Emily Kate Thome, formerly of Cardiff, Wales. Dr. L. E. W. Irvine and Mrs. H. M. Leitch acted as attendants. The young couple will reside in Edmonton South.

LECTURES TO FARMERS' CLUB

The meeting of the Cultivation Agriculture of the University of Alberta on Saturday evening last, was devoted to a lecture by Dr. Lewis, professor of Biology. The lecturer pointed out at some length the relations between soils and the kinds of plants which they produce, indicating in this way the importance to agriculture of scientific soil study. A number of lantern slides were used by way of illustration.

REV. LEITCH SALARY RAISED

At the February meeting of the Metropolitan Church official board there were evidences of harmonious unanimity and prosperity, while facing an increased budget with good confidence. A unanimous invitation was extended to their pastor, Rev. H. J. Leitch, for a third year, accompanied with an increase in stipend to \$2,000. The choir was varied, provision, and Rev. Prof. A. D. Miller submitting the resolution which on accepting Mr. Leitch, offered to do his best and wished through prayerful co-operation the future prosperity of the Metropolitan Church and God's work in the city and the province.

MAN FROZEN AT BOWDEN

Mrs. John A. Stewart, wife of the man who has been so mysteriously lost since January 29th, received from a lady in Edmonton South a letter containing a clipping from the *Edmonton Province* in which the Bowden correspondent told of the finding of a straw stack, a man with feet and hands badly frozen and no doubt that he could not tell his name. He was a stranger in the district, and was taken in charge by the R.N.W.M.P. and taken to the hospital at Red Deer. In answer to inquiries made yesterday from Bowden it was learned that this man was younger and of smaller stature, than John A. Stewart. The missing man, who was 47 years of age, was tall and slim. His body appeared in another column under an offer of \$100 reward for his recovery alive, or his body if dead.

BULLETIN ON CITIZENSHIP

The department of extension of the University of Alberta has just issued its bulletin for debaters on the question of British citizenship. The resolution: "That the time has now come when the responsibilities of British citizenship should no longer be confined to the inhabitants of the United Kingdom," is supported under four divisions by the general argument that the interests of the various parts of the empire are very closely related and that the problems social, economic and political demand for their solution the united efforts of all the nations within the empire. The main line of argument adopted by the negative is that the problems assumed by the affirmative are after all not so acute as they are made to appear, and that the time has not yet come when the inexperienced colonial can with profit aid in meeting the difficulties of shaping the policies of a world state. Builders on single tax and consolidated rural schools are now on the press and will be ready shortly.

A. C. GLEE CLUB TRAVEL

About twenty members of the Alberta College Glee Club drove to Anderson Methodist Church on Thursday night, where they gave the entire program of a first-class entertainment, under the skillful leadership of Haydon Morris, the popular leader of Westminster choir, and of Alberta Glee Club.

Though the journey of seventeen miles occupied about twenty-four hours for the round trip, the students enjoyed the sleigh ride in the tall ice. The loneliness of the drive of the bachelors was forgotten when J. V. Fawcett and Duncan Cameron of the Glee Club and former pastor of Anderson introduced their mutual friends.

A splendid supper provided for the visitors by the pretty young ladies of Anderson will long be remembered by the students, who all live good cooking. The outcome of this venture may encourage some other members to plan the party to some of their former mission fields in Central Alberta.

It is also reported that the Alberta College Glee Club will give a concert some time in March in McCreedy Church, where their many city friends will have an opportunity to enjoy their entertainment.

UNIVERSITY LECTURES

The Philosophical Society of the University of Alberta have issued a special invitation for the following public lectures for the term: "A Philosophy of the Hellenic Spirit," by Alexander, on March 24th; "Some Aspects of Modern Astronomy," by W. R. Inge, on April 1st. The lectures are cordially invited to those lectures which take place in Room 11, Assiniboia Hall, beginning at 8 p.m.

Land settlement in Australia

Adelaide, Australia, Feb. 24.—The success attending the land settlement policy of the South Australian government is well shown by the annual report of the surveyor general, which has just been made available. The report states that the number of applications for land dealt with by the land board during the twelve months ended June 30, 1912, was 2,166. The first acre allotted was 50,000 acres, 15 persons, the number of allottees being 112 more than was the case in the preceding year.

15 KILLED FIRE HOTEL IN OMAHA, NEB.

Dewey Hotel Takes Fire While
Guests Are Asleep in
Rooms.

ONE MAN LEAPED FROM
THIRD STOREY WINDOW

Fell to the Pavement on His
Head and Was Killed—Hotel
Was Second Rate One.

Omaha, Neb., Feb. 28.—Not fewer than fifteen, and possibly as many as twenty persons perished in a fire which destroyed the Dewey hotel, a three-story building at Thirtieth and Farnam streets, here early today. As the flames broke out, the house burned but many persons in their lives.

For three hours the fire raged fiercely, the flames spreading freely handicapped in their efforts to subdue the flames by a freezing temperature and a biting wind.

The guests were aroused by rattling of the house as rapidly as possible and some few made their way to safety, but many others, overcome by the confusion, through dense smoke, which filled the narrow halls. Others, however, were unable to escape and the acts and others were burned to death or were maimed.

Many Jumped From Windows.

Quite a number were injured by jumping from the windows and by falling ladders, but many others were rescued only after suffering severe burns which, in some cases, probably will prove fatal.

The known dead:

James Proke, Charles Hevry, Miss Alice Brownell, Charles Cunningham.

The known injured:

Louisa Nelson, 2114 Dodge street, burned on face and body.

John Jennings, overcome by smoke.

Martha Hennings, Ewing, Neb., overcome by smoke; may die.

John Newman, overcome by smoke.

Unidentified woman, overcome by smoke; probably will die.

E. C. Sims, overcome by smoke.

Many Not Registered.

The Dewey was a second-rate hotel, and it is believed there were many guests in the house who had not been registered, which fact will render all the more difficult the task of checking up the list of casualties.

The fire was discovered about five o'clock in the rear of the building.

It had been burning for some time, however, before it was noticed, and had attained so much headway that it was with great difficulty that the fire was confined to the one building.

The building was a seething mass of flames when the first fire company arrived.

The fire burned with almost fierce fierceness despite the fact that many streams of water were poured into the building from all sides.

Large clouds of smoke filled the rooms from cellar to garret and the flames shot up many feet into the air.

When the roof was reached and poured out through the windows.

Women Went Inside.

A number of women were hysterical at least one of whom, Mrs. C. P. Wilkins, is believed to have been insane. Another Swedish housekeeper in the hotel, also, is thought to have lost her mind.

It is thought some of the women were burned to death in their beds without awakening. Others are thought to have fallen into the flames below when some of the floors collapsed.

Shrieking men and women crowded into the hallways and down the stairs wearing only their night clothes, but to be overcome by the smoke and rescued by interested firemen, who ventured inside. Perhaps a dozen persons were carried to the street.

Ten Bodies in Ruins.

The basement, into which the burning interior fell within half an hour after the fire started, contained the bodies of not less than ten persons.

FOOD FOOD FEATURE OF U. S. TARIFF BILL.

Washington, Feb. 28.—Despite efforts of the ways and means committee of the house in its proceedings secret it became definitely known that the first item today that the "tariff bill" will be a feature of the tariff bill which the ways and means committee will recommend to congress which comes April first.

The duty on various grains, meats and foodstuffs has been either reduced or entirely removed in the bill which the ways and means committee has approved.

Two months ago members of the committee who formed a combination of representatives of agricultural, commercial and manufacturing interests would prevent the reduction of the food tariff in connection with the tariff platform, but the insistence of the leaders in the tariff party has recently endeavored to reduce the high cost of living had its effect.

Kaiser Loses Law Suit

William Tuller lost a lawsuit brought against him by a tenant farmer named Schol, of whom he boasted in a recent speech that he had thrown him out because he was no good.

The district court decided that the Emperor was not entitled to terminate the lease of his tenant, which ran until 1913.

Some, declared the Emperor's attorney, there was no way in which to reach them for many hours after the burning collapsed. The rear wall fell in on the sides and all were buried beneath hundreds of tons of debris.

It is believed the fire started in the rear, probably in the furnace room in the basement. Persons in the vicinity at the time say there was an explosion of gas and in a few minutes the entire interior was in flames.

Bartender's Awful Death.

One man, Chas. Cuninga, a bartender, leaped from a third story window. He struck on his head on the concrete walk and was mangled.

Mrs. C. H. Hawkins, who, with her sister, had a room on the second floor, dragged her sister, Miss Alice Brownell, to the window. There she collapsed.

Mrs. Hawkins was forced to jump for her own life. Two policemen broke her fall, but she was badly injured. Her sister's body is in the ruins.

John J. Zola, night clerk, was the last living person to leave the building. He opened the door of his office on the second floor when he heard an explosion and was driven back with a puff of smoke and flames.

He attempted to assure a few persons at that door, but he failed to do so and, almost overcome, to save his own life.

A woman, who was in the building, turned in a "stall alarm" by telephone. He rushed out and found the building a mass of flames.

He found the company in flames and turned in a second and third alarm which brought out the entire downtown fire fighting force. When the flames had been brought under control, people were already crowding to windows in the upper stories, but before flames could be reached, however, the roof began to cave in on the unfortunate.

Not a single person was rescued by the laddermen.

The city commissioners have had a mystery unfolded on their hands.

Their regular meeting this morning, a letter was read from P. A. Peters, the commissioner of irrigation and water power. Mr. Peters is an official of the Department of the Interior and is stationed at Calgary.

Recently he noticed in an engineering publication that Edmonton was considering installing a water supply sufficient for a city with a population of 250,000.

Mr. Peters immediately got very busy. On behalf of the government, he has written the commissioners informing them that "in 1905, Mr. John McKim, then deputy minister of public works, leased to the city license No. 1."

This license, it would appear, gave the city the right to divert 1,500 cubic feet of water per second from the North Saskatchewan.

As this was in 1905, after Edmonton is now taking about a population of 250,000 people. Mr. Peters believes that the city will be using a great deal more water and so informs the commissioners they had better take out another permit.

On the other hand, the commissioners of the city engineer's office, when asked for aid in the problem, gave some figures that show that other Mr. Peters is away out, or else that there is some other matter at the bottom of the mystery.

Today the city is using about 1,500,000 gallons of water per day. This makes just 40,000 cubic feet of water every twenty-four hours.

At the present rate of consumption per second, the figures are seen to be between 8 and 10 cubic feet per second.

As the city already has the right to use 1,500 cubic feet per second, according to Mr. Peters, Edmonton could very easily become the largest city in the world and not go over the limit.

And as the city uses no water at all for power development, the mystery is all the deeper.

73 COMPANIES WITH CAPITAL OF \$91,351,883

This is the Number of New Companies Organized in Alberta in 1912.

PROVINCIAL SECRETARY
TABLES HIS REPORT

Report Shows 2,300 Companies Incorporated Since Province Was Organized.

Seven hundred and thirty-one new companies with a capitalization of \$1,111,883 were incorporated in Alberta last year, as compared with 571, with a capitalization of \$72,435,100 during 1911. Since the incorporation of the Province there have been 2,300 companies incorporated in the Province, with an aggregate capital stock of \$27,284,583. In addition to the certificate of incorporation issued last year, fifty-two supplementary certificates were issued, thirty-two of which were to increase the capital stock of existing companies by the sum of \$2,415,989.

A feature of the recent company incorporations is the fact that many of these incorporated in former years remained some time in the charter stage, nearly every company incorporated last year commenced business immediately.

These facts are noted in the annual report of the Provincial Secretary's Department for 1912.

The following table shows the number of companies incorporated under the Companies Ordinance since the inception of the Province, September 1, 1907:

Year. Number of Companies. Capital.

1907 (16 mos.) 131 \$1,552,500

1908 147 2,164,850.00

1909 127 1,917,950.00

1910 209 1,854,000.00

1911 300 31,474,425.00

1912 571 74,435,100.00

1913 251 21,521,532.32

Total 1,236 92,704,592.32

Extra Provincial and foreign companies, registered under the Foreign Companies Ordinance during the year 1912, numbered 148, as compared with 121 in the previous year.

Total capitalization of these new companies was \$14,492,466, as compared with \$11,147,659 in 1911.

The following table gives the number of companies registered in Alberta each year since the establishment of Alberta as a Province:

Year. Number of Companies. Capital.

1907 44 \$2,482,420

1908 58 47,420.00

1909 80 81,341.00

1910 85 78,322.00

1911 131 74,749.00

1912 168 142,492.00

Total 556 147,644.00

Many leading English, American and Canadian companies have established agencies in the Province, which plainly indicate that business men and financiers have shown a keen appreciation of the opportunities existing in Alberta.

Dutch and French capital is also represented in the above figures, but the investments are largely in mortgage loans in the Province. German companies registered here have invested largely in lands and coal.

The number of permits issued to motor vehicles in the Province has grown from 41 in 1906 to 2,535 in 1912, while the revenue from this source in 1912 has grown from \$125 to \$157.78.

The revenue of the department for the year was \$221,774.39, as against \$177,061 for 1911, an increase of \$225,714.75. This amount is largely in excess of any previous year.

Fire in Wetaskin.

Wetaskin, Feb. 28.—The Wetaskin store was partially destroyed and the stock damaged by a fire which broke out early this morning in a vacant room over the store. The origin of the fire is a mystery. A water pump was used to prevent the spread of the flames to the lower floor. The loss will be about \$1,000.

STATE LEGISLATOR
WILL BOX PACK.

Occular Demonstration To Be Given Members of House.

Chicago, Feb. 28.—That an ocular demonstration will aid in passing the box pack bill now before the state legislature, is the belief of George C. Hill, the representative who drafted the bill. Representative Hill is a four-round boxer and is a member of the House of Representatives.

Hillton is a skilled amateur with gloves and declares he is prepared to receive a majority of the punishment if only he can convince the two-makers that boxing is regulated under his bill is a clean, scientific sport, and should be permitted.

BERLIN TO REGULATE PEDESTRIAN TRAFFIC

German Capital Will Impose Rigid Restrictions on Pedestrians—Must Keep to Right, and Prohibited to Cross Road Diagonally.

Berlin, Feb. 28.—Herr von Jagow, the energetic president of the Berlin police, who is also a distant relative of the foreign minister, has drawn up some fresh regulations with respect to the behavior of pedestrians in future, people walking in the streets will be compelled to keep to the right. This is certainly a very necessary regulation in a town where the people are in the habit of walking all over the pavement.

Another regulation sees forth that any one meeting a friend, or for any other purpose remaining stationary on the pavement, must withdraw to a quiet part of it. The public is further forbidden to cross the road diagonally, that is to say, when crossing the street, pedestrians will be compelled to do so at right angles to the pavement.

Finally, in crowded thoroughfares, nobody will be permitted to cross the street at all before the constant re-quiring the traffic has given the necessary signal.

Owing to the delay which the compliance with these regulations will entail, protests by business men are being made against their enforcement.

AUSTRALIAN MINISTER
REPLIES TO CRITICISMS

Senator Pearce Makes Frank Statement Concerning Miscellaneous Items of Canadian Conservative Newspapers on X-ray Proposals.

Melbourne, Feb. 28.—Senator Pearce, minister for defence, interviewed today, made an emphatic reply to the criticisms made in the recent speech on imperial defence by Canadian Conservative newspapers.

"At the admiralty conference in 1909," said the minister, "a memorandum was submitted regarding the establishing of a Pacific fleet, and it was proposed that Australia, Canada and the British admiralty should each contribute a unit to this fleet. The Australian fleet was then discussed, and it was finally agreed that it should be manned and controlled by the commander-in-chief of the Pacific."

"That is the scheme which we are carrying out at the present time, and the declarations which have been made by the admiralty of the United Kingdom, that the fleet unit in the Pacific should be controlled and owned by Australia."

"Referring to the statement emanating from Canada that the admiralty at the 1911 conference had stated that a fleet conducted by a Dominion would prove embarrassing."

"Such a declaration was never made by the admiralty board. It did not even exist that a fleet unit would prove embarrassing, but rather regarded the statement as one of substantial assistance."

MANUFACTURERS CAN DO IT.

Railway Companies Will Not Intervene.

Toronto, Feb. 28.—The transportation department of the Canadian Manufacturers' Association has announced that after a long fight they have succeeded in getting the railway to withdraw the proposed increased rates on lumber imported into Canada from the United States south of the Ohio river. This particularly affects the large quantities of lumber imported into Ontario, Quebec and the Canadian West, and means a difference of from one to seven cents per thousand feet, amounting to many thousands of dollars in freight per year.

Chicago, Feb. 28.—Mr. Louis Lindholm, who was convicted of the murder of her son to obtain the insurance on his life, today was sentenced to twenty-five years in the penitentiary.

LATE C. M. HAYS LEFT HIS ESTATE TO WIFE

Fortune of Almost \$800,000 in Real Estate, Mortgages and Stocks

Year Before Death Daughter Was Ample Provision For—Mrs. Clara G. Hays

Toronto, Feb. 28.—The will of the late C. M. Hays, president of the Grand Trunk Railway, who went down with the ill-fated Titanic, has been made known, and it shows that he left an estate of nearly \$800,000 to his wife, Mrs. Clara G. Hays.

Twelve months before his death Mr. Hays made a liberal settlement upon each of his four daughters, and under the will their father, therefore, leaves only \$100,000.

"To my dear wife, Clara G., all the residue of my said estate, real, personal and mixed."

"I hereby cheerfully release and discharge all obligations in respect of notes, mortgages or otherwise that may exist in my favor on and after my death."

"And I do hereby nominate and appoint my said wife, Clara G., my executor of this my last will and testament, and it is my will and intent that she shall not be required to give bond as such executor."

The affidavit of the death of Mr. Hays was made on the 15th of April, A. D. 1912, at sea on the deck of the wreck of the steamer "Titanic." The will was made on December 21, 1912, when Mr. Hays was a citizen of St. Louis, Mo.

Green Paint on Suffragettes

British Public in Its Exasperation is Retaliating on Mischievous Women.

London, Feb. 28.—As the British government seems to be unable to enforce the law, the exasperated public is taking into its own hands the punishing of the mischievous suffragettes.

Two women stamped "Votes for women" in green paint on the public seats in Hampstead beach, and several persons spoiled their clothes by sitting on the benches. They were found later stamping the words on the gates of a private house. A crowd of men and women. Their hair was pulled down, green paint was poured over their heads and "votes for women" was stamped on their cheeks and foreheads.

A woman selling the *Pankhurst* paper in Piccadilly was surrounded by a crowd which tried to push her toward a fountain, but she escaped into a tea shop much distressed. The afterwards rushed to a taxi-cab which would have been overturned had not the chauffeur started on quickly.

Outside the Richmond police court when Joyce Locock, the attractive girl who threw a book at the magistrate when she was imprisoned (for incitement) in New gardens) was released on bail only the entrance of the police leaving her and her bondsmen from being roughly handled.

INCREASE IN WAGES IN GREAT BRITAIN

Board of Trade statistics show Advance in Wage Schedule—Food Dealers.

London, Feb. 28.—According to statistics appearing in the board of trade Labor Gazette, employment continued good during 1912, and there was a general increase of wages. This, however, was to a large extent discounted by the rise in the price of food.

Wages showed a decided upward tendency during the last six months of 1912, the chief increases being in the coal mining, textile, engineering and ship-building, building and iron and steel trades.

In the case of articles of food and drink there was a rise of 7.5 per cent, as compared with the previous year.

PEACE IN BALKANS BELIEVED IMMINENT

Turkish Government's Offer to Cede "Aegean" Expected to "Prove Acceptable" to Bulgaria—Turkish Demands Certain Frontier Line Concessions.

London, Feb. 28.—A pronounced belief prevails in official circles here that peace in the Balkans is imminent. Turkish Press and Hakkî Paşa, representing the Ottoman government, paid successive visits to the foreign office this morning, the latter being the last of the conference.

Turkey's offer to concede hostilities on the basis of the cessation of Adriatic to Bulgaria, has created a general opinion. Turkey, it is understood, demands that her frontier line shall be drawn from Midia on the Black Sea, to Kinosa, on the Aegean sea, if she gives up Adriatic, and it is believed that Bulgaria will raise no objection to this proposal.

In the event of peace being arranged, the main terms will be signed on the scene of hostilities and the details filled in afterward by plenipotentiaries in London.

Illness Hinder Hinderburg.

Bladesburg, Maryland, Feb. 27.—The decision of the national officers of the Suffragist association to themselves present to President Wilson the suffragette message that "General" Roscoe Jones and her "army" of hikers had carried from New York, failed to dampen the ardor with which the pilgrims are making the long march to the nation's capital. They arrived here late this afternoon, after a wet and wintry journey from Laurel, which place they left this morning.

Belgium Fears Outbreak of War

In European Conflict That Country Would be Centre of Hostilities.

Brunswick, Belgium, Feb. 28.—Apprehensions of a possible war between the Great European powers appear to exist among the members of the Belgian cabinet, and the king, shared by the leaders of the opposition parties. The latter have been taken into the confidence of the ministry with the object of making them realize the increasing of the Belgian army non-partisan in character.

M. Hymans, leader of the Liberals in the House of Representatives, declared, today: "Belgium, in the event of the outbreak of war, would become the battle-ground of Europe. The country must do its utmost to prepare for its defense."

Electric Railways to Wabamun Lake and Fort Saskatchewan

Charters for These Two Proposed Lines and For Steam Railways Before Railway Committee of Legislature—Hon. Malcolm McKenzie Denounces Charter-Hawking.

"Old country people who want to invest their money in railways should come here and get charters from the Alberta and other governments, and not be held up for hundreds and thousands of dollars by people who are hawking and peddling charters in the old country," said the Hon. Malcolm McKenzie in the Railway Committee of the Legislature, Mr. McKenzie took a strong stand against encouraging the hawking of railway charters, and said he did not think it was legitimate for any company having obtained a charter to build a railway, to sell that right to any other corporation.

Saw Hawking of Charters.

When he was over in the old country recently Mr. McKenzie stated he saw a lot of this charter hawking. He said that he had seen a charter to build a line from Southern Alberta right up into the Peace River, and he had a map which represented the country lying to the west of the C. and E. line as thickly settled.

The Railway Committee of the Legislature, under consideration several railway bills this morning, and in the case of the High River and Hudson's Bay railway company, and of the Central Canada Railway company, the committee increased the share set down for the capital stock of the company from \$100,000 to \$125,000. Mr. McKenzie occurred this alteration, stating that they should represent in the charter more nearly the cost of the construction of the line.

To Hudson's Bay.

The High River and Hudson's Bay railway proposals to build from the town of High River through Alberta and Saskatchewan to the Hudson's Bay. The company has a dominant charter in Saskatchewan. The bill was supported by L. M. Roberts, the member for High River, who stated that between \$20,000 and \$25,000 had already been spent on surveys in connection with the road. About 200 miles of the total of some thousand miles of the line would be built in this province.

The Central Canada Railway is to be built by the same persons who are building the Edmonton, Daughen and R. C. railway. In the bill the directors are named as J. D. McArthur, Winnipeg; J. K. McKinnon, of Edmonton, railway manager; A. C. Galt, of Edmonton, railway official; Sidney B. Woods, R.C., and J. T. Collier, both of Edmonton. The line is to be built from Peace River Landing in a northerly direction towards the Battle River.

Wabamun Electric Line.

The Edmonton, Stony Plain and Wabamun railway, an electric line proposed to be built from Edmonton through Stony Plain and Spruce Grove to Wabamun Lake, a total length of some 75 miles, was also under consideration. The promoters are Adolphe Holman, Edmonton, broker; A. Victor Pabst, Paris, France, capitalist; Edward B. Macdonald, Edmonton, and John W. Macdonald, of the company is to be \$175,000. The construction of the railway is to be commenced within two years and completed within five. The company is authorized to establish short and long lines and free amusement cars.

Line To The Fort.

Each of the foregoing bills, together with the other Transit company's bill, were reported to the House with amendments. The bill promoted by George Greenwell, Montreal, Charles William Gossier and Samuel H. Smith and others, to incorporate the Trans-Canada Railway Ltd. to build a line from Edmonton, northward to Innisfail, and to Fort Saskatchewan, was allowed to stand over for amendments according to the recommendation of the Law Clerk.

FORGER GOUGED OUT BOTH OF HIS EYES

Loose Leaf Book Manufacturer Accused of Forgery—The Motive of Inducing Self-Portrait—Does Not Believe in Suicide.

Los Angeles, Cal. Feb. 28.—Arrested for a series of small forgeries, T. J. Heine, founder and former president of the Loose Leaf Book Manufacturing company, of Minneapolis, was gougued out both of his eyes today in self punishment.

"I don't believe in suicide," explained Heine, "I want to die a natural death, but I never shall see daylight again for my mother's sake and I am at peace more than for some time."

Heine mutilated himself with a small pen knife when he failed to the lining of his coat and was avenged by the police who searched him.

Fire at Mundare.

Mundare, Alta. Feb. 28.—Fire this morning, originating from a defective fuse, caused the loss of M. Harvey's implement house. The loss on the building is \$2,000 and on the stock \$2,500. The insurance is \$2,500. The stock was composed of Cokesville and Harvey's goods.

Boston Dressmakers Strike.

Boston, Feb. 28.—Shirtwaist and dressmaking operatives here struck today for an increase in wages and shorter working hours. 125 others are affected and 9,000 workers are out.

Grossdale

Where the High Level Bridge Will Take The Population

WE BELIEVE IN GROSSDALE

It has great natural advantages, being for the most part high, dry, level and open.

It is well located, being inside the city limits and directly south of the new High Level Bridge, which, when completed, will make the South Side Edmonton's chief residential district.

It has bright prospects for immediate improvement. Paving goes this year to within six blocks of GROSSDALE, and a carline is mapped out to run along its northern boundary.

Its prices are right and terms exceptionally easy. This splendid investment opportunity is within reach of everyone.
